June 1, 2015

To Whom It May Concern,

The Chula Vista Olympic Training Center is entering in partnership with Live Well San Diego to promote and support a Healthy, Safe and Thriving community. The CVOTC will support these goals through our services offered to the community and the support provided to our employees and athletes.

For the community, the Chula Vista Olympic Training Center will continue to:

- Promote a healthy lifestyle in cooperation with the Chula Vista Elementary School District’s Exercise the Dream program, which operates on our facility
- Provide recreational outlets for youth in the area to get involved with Chula Vista BMX, Roadrunner Archery programs and other youth sports tournaments hosted at the Olympic Training Center and through the Chula Vista Community Fun Run, held every May to promote physical fitness

For our employees and athletes, the Chula Vista Olympic Training Center will continue to:

- Promote physical activity with access to onsite exercise facilities
- Provide a smoke free workplace
- Prohibit drug use and alcohol use on-site

San Diego County is focused on healthy habits and the concept of thriving in the community, which falls in line with the Olympic ideals of sportsmanship, fair play, respect and perseverance. We supports the goals of Live Well San Diego and will continue to strive to positively impact the well-being of our employees, athletes and the greater community.

Warm Regards,
