A Guide to Becoming Engaged in the Community

LIVE WELL
SAN DIEGO
LIVEWELLSD.ORG

About this guide

This resource is brought to you by the Age Well San Diego Social Participation Team. Age Well teams are comprised of older adults and representatives from a variety of community organizations. The teams are coordinated by the County of San Diego Health and Human Services Agency, Aging & Independence Services. To learn more about Age Well San Diego and how it fits into the County's comprehensive framework on aging services, the Aging Roadmap, visit www.livewellsd.org/agingroadmap.

To learn more about programs and services for older adults and persons with disabilities, visit www.aging.sandiegocounty.gov or call (800) 339-4661.

The information on the effects of social isolation in this handbook was gathered from a variety of sources. Please refer to the references section at the end of the book for more details.

Introduction

Benefits of Social Connection

Feeling a sense of connection and belonging is important for all of us and can positively impact our health. Individuals with strong social ties live longer and are healthier than those with weak social ties. Our relationships encourage us to take better care of ourselves, try new things, and develop a sense of purpose. Yet maintaining relationships can be hard when we are sheltering in place, live far from family, experience health issues, lack transportation, or are busy caregiving for others.

Social Isolation vs. Loneliness

Social isolation is defined by measurable factors like the size of a person's social network and access to transportation. Loneliness is based on how your level of social connection makes you feel. You can feel happy with just a few friends, and you can feel lonely despite having many friends.

Who is Affected?

One in three U.S. adults age 45 and older report feeling lonely. Unpaid caregivers, low-income individuals, and those identifying as LGBTQ are at increased risk of loneliness. Other factors that may impact loneliness include having a small social network, losing a spouse, being physically isolated, and poor health. In San Diego County in 2012, 46% of older adults agreed that isolation negatively impacted their quality of life.

If you feel lonely. . .

***you are not alone in
your loneliness.***

What You Can Do

Most people benefit from maintaining and building social connections. This guide provides strategies to help you get connected, whether you feel lonely, want to build connections to prevent loneliness, or are trying to help someone you know become more socially connected.

How Social Connection Impacts Your Body

Social Isolation

Impaired cognition
(fuzzy thinking)
Depression, anxiety
Poor sleep

Increased risk of
heart disease

Compromised
immune
system

Weight gain
or loss

Increased
cortisol (stress
hormone)
released from
kidneys

Inflammation

Social Connection

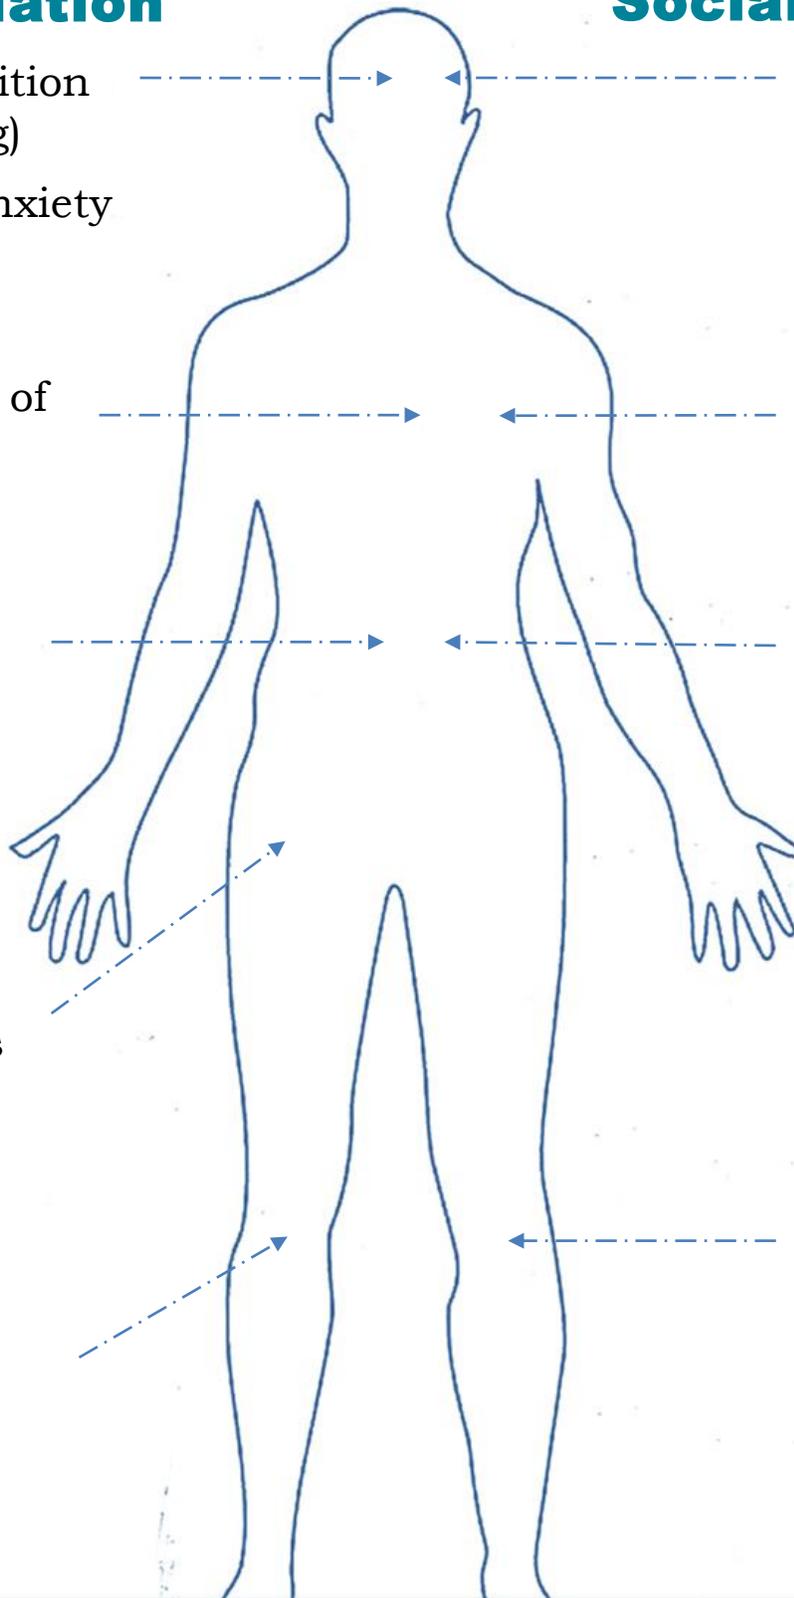

Improved
cognition (clear
thinking)
Happier mood
Improved sleep

Stronger
heart

Better
immune
function

Weight
maintenance

Decreased risk
of rheumatoid
arthritis

Loneliness and social isolation can be as damaging to health as smoking 15 cigarettes per day.

First Steps

It can feel intimidating to take your first steps toward becoming more connected. Here are some simple actions you can take to get connected.

Take an online class and learn something new.

Play online games with friends and loved ones.

Schedule a virtual coffee or tea date with with a friend.

Consider adopting a pet.

Learn about technology you can use to make video calls.

Find virtual volunteer opportunities and make an impact in your community.

Overcoming Challenges

Challenge

Suggestions to Overcome

“I have an illness or disability.”

- Research support groups for your illness or disability.
- Include a family member or caregiver when trying a new activity.
- Choose activities from the “Ways to Engage” list in this guide.

“I don’t have transportation.”

- Call FACT Transportation Services at (888) 924-3228.
- Ask a household member or friend for a ride and invite them to the activity!

“I don’t know anyone in my community.”

- Consider communities you might be overlooking (church, neighbors, support groups, volunteer groups).
- Call loved ones who are far away.

“I worry that people won’t accept me.”

- Remember you’re not alone in feeling this way!
- Talk to someone about these fears.
- Ask a family member or caregiver to join you.

“I’m embarrassed of how I’ve aged.”

- Remind yourself that everyone is aging!
- Connect with people who are at your life stage.
- Realize that with age comes knowledge and valuable experiences to share with society.
- Practice gratitude and find joy in things you can still do.

Ways to Engage

Resources and Ideas

Educational Opportunities

Libraries

County Libraries: sdcl.org

858-694-2415

City of San Diego Libraries: sandiego.gov/public-library

619-236-5800

Some other local cities have their own library systems. Find your local library and explore their online events and current borrowing policies. Some libraries will deliver books to your home!

San Diego Oasis

619-881-6262

Virtual fitness, art, and educational opportunities:
<https://san-diego.oasisnet.org/>

Open University

Online classes: calstate.edu/extension

562-951-4880

OSHER Lifelong Learning Institute

Online and in-person classes.

Cal State San Marcos: csusm.edu/el/olli

760-750-4020

San Diego State:

ces.sdsu.edu/osher-lifelong-learning-institute-sdsu

Alzheimer's San Diego

Free education, volunteer opportunities, and caregiver support groups: www.alzsd.org

San Diego Caregiver Coalition

858-505-6300

Community organization offering caregiver support, education, and advocacy: caregivercoalitionsd.org

Help Loved Ones Get Connected

The following phrases can help start a conversation to encourage loved ones to get connected:

- “I’m going to try (insert activity), would you like to join me?”
- “You’ve always been interested in _____. Let’s sign you up for a virtual class!”
- “We haven’t seen _____ in a while. We should set up a video call!”

Conclusion

It can take courage to reach out to others and try new things when you’re feeling lonely or socially isolated. The first steps can feel intimidating, but you are not alone. It is important to remember that becoming socially connected is beneficial to your health and well-being. Giving back to your community, connecting with loved ones, or trying something new are a few of the many ways to share who you are with the world, and remember that you are valued.

Acknowledgments

This guide was created by the Age Well San Diego Social Participation Team. Special thanks to Age Well student interns, Shannon Hennessy and Théo Gallegos, for their research, content, and design contributions.
